

MANNED GUARDING

The MG package best suits organisations who require a visual deterrent. A security officer/s in uniform guard your premises, this applies to front of house, construction sites, corporate offices etc. If you already have security cover in place please call us to see how we can make that more cost effective for you.

KEY HOLDING OPTION

There is nothing worse than having to attend work in the middle of the night due to alarm activations. Do you really need the hassle of dealing with false alarms after a long day's work? This package is a cost effective way of dealing with any eventuality. For a minimal fee we hold the keys to your premises and our SIA licensed staff carry out all checks for you.

MOBILE PATROL

At a fraction of the cost of a security officer we can provide regular, but randomly timed patrols to virtually any type of premises. This gives you a peace of mind and your business protection without having to break your budget. This package is best suited for warehouses and large industrial estates.

AD-HOC REQUESTS

This package covers all cover that is not listed, from luxury homes to short term security cover. No request is too big or small. Please call us to discuss your requirements. Our team has vast experience in helping you secure your assets within your budget.
